QUALITY POLICY

The WellPartner quality policy is:

“To deliver products and services of correct quality first time”

It is WellPartner’s goal to be the preferred business partner by providing products and services of the highest standards according to customer requirements, needs and expectations.

We shall perform our activities and assigned tasks according to customer requirements, applicable rules and regulations, harmonised and recognised standards, best practices, and our internal requirements.

We will achieve this by:

- Establishing and continuously improve our quality management system certified according to the international standard ISO 9001:2015.
- Developing personnel’s talent and competence
- Establishing and tracking of key performance indicators (KPIs)
- Monitoring and continuously improving customer satisfaction
- Establishing and committing to fair trading -and ethical principles
- Requiring commitment to the same principles from suppliers and other partners

We do this to obtain trust and satisfaction among our employees, customers, owners, suppliers, and other interested parties.

To ensure compliance the management systems and the result of its processes and activities shall be reviewed by the WellPartner management team on an annual basis.

Date/ Place: Tananger / 13.12.2022
